

IETF HTTP WG 2020-10 Interim - HTTP Core

[Julian Reschke](#), greenbytes

Current Status

New set of drafts submitted in October 2020: these mostly restructured the contents of draft-ietf-httpbis-semantic.

- [draft-ietf-httpbis-semantic-12](#) ([diffs](#))
- [draft-ietf-httpbis-messaging-12](#) ([diffs](#))
- [draft-ietf-httpbis-cache-12](#) ([diffs](#))

HTTPbis Errata

...as of October, 14...

- 32 non-rejected errata in total, of which
- 14 "Verified", 11 "Held for Document Update", 7 "Reported"
- 31 addressed in -12 and previous drafts, 1 open
- all mapped to issues on Github

Summary: <https://httpwg.org/http-core/httpbis-errata-status.html>

Github issues

- 273 in total (250 closed)
- 32 for errata (31 closed)
- 98 editorial (89 closed)

Summary: <https://github.com/httpwg/http-core/issues>

Plan

- Get people to review the new structure of SEMANTICS
- Address the few remaining issues
- WGLC?
